2008 Awards of Excellence

The efforts of consulting engineering companies and their professional engineers were celebrated at the 9th Annual Manitoba Awards of Excellence in Consulting Engineering hosted at the Winnipeg Convention Centre on April 24th, 2008. This year's event held special significance to the Consulting Engineers of Manitoba, as the association celebrated its 30th year of operations with over 325 guests. Accordingly, this year's event included a retrospective showcase of CEM's rich history of firms, key people and engineering achievements of the past 30 years.

Leon Botham, National Chair of the Association of Canadian Engineering Companies (ACEC), was joined by a delegation of CEM Past-Presidents, CEM members, valued clients, suppliers, government representatives, and several retired key personnel involved in CEM's success over the past 30 years.

CEM presented several individual awards to engineers who have contributed above and beyond in service to CEM and the engineering industry. The Lifetime Achievement Award was presented to **Norm Ulyatt, P. Eng.** of Dillon Consulting; the Engineering Action Award was presented to **Roger Rempel, P. Eng.** of TetrES Consultants; and the Rising Star Award was presented to **Daniel C. Zaborniak, P. Eng.** of Acres Manitoba Limited.

This year, 27 projects were submitted by CEM member firms and were judged by an independent, blue-ribbon panel of leading industry professionals again chaired by Dr. Jay Doering, Professor of Civil Engineering and Dean, Faculty of Graduate Studies, at the University of Manitoba.

CEM thanks event Title Sponsors XL Insurance and Oldfield Kirby Esau Inc., the patron and event sponsors and the volunteer committee lead by Chair Cheng Wong.
